The mission of the
Plymouth FRC
is to nurture the healthy
development of all
families, strengthen the
bond between the school
and the family, and help
all children be school
ready.

Our Philosophy

We believe in children and families. Our dream is to help each child reach their full potential by motivating and inspiring them in a warm, happy, caring environment and to nurture each family as a unit as they continue to grow together, as leaders in their child's education, and advocates in their community. Each child and families' specific talents, interests, and curiosities will influence the ever-evolving programs and activities offered.

Our activities are designed to:

- Enhance self-esteem
- Cultivate social skills and interactions between child and family
- Stimulate family learning and growth
- Promote developmental growth in cognitive, speech/language, large/small muscle, social interactions areas
- Encourage inclusiveness
- Unleash creativity

We will provide an atmosphere of respect and trust in which families can freely explore and discover together, go beyond themselves, and reach for the sky. Our goal is to make each family lovers of learning and eager discoverers and leaders in their school and community. Our wish is to offer families the opportunity to experience with their child the sense of wonder, a sense of humor, a sense of compassion, and a sense of optimism about learning and living.

We offer :

- daily Playgroups
- 5-day a week preschool opportunities
- weekly positive youth activities
- weekly parent/teacher volleyball/softball
- monthly parent/childcare provider educational workshops
- monthly support groups
- monthly field trips
- monthly homevisits
- advocacy opportunities
- resource and referral for Early Childhood concerns

We 'd love you to
